

Working to reduce tobacco's impact on Idaho's health

Dear Community Leader,

On behalf of the Coalition for a Healthy Idaho and our Smokefree Idaho Campaign, I ask for your support to help us provide a smokefree environment for the workers, residents and visitors of our community. Your support of this campaign shows Idaho residents and community leaders that the time is now to make all public places free of the toxins found in secondhand smoke.

As you may know, there is no risk-free level of exposure to secondhand smoke. Secondhand smoke is a documented health hazard and human carcinogen. Not only is it unpleasant, but it directly contributes to heart and respiratory problems as well as cancer. In this day and age no one should have to choose between a job and good health. It is time for Idaho to protect all workers from the dangers of secondhand smoke.

There are many ways for you to help protect Idaho workers, residents and visitors!

- Add you organization's name to the list of Smokefree Idaho Supporters
- Help us identify individuals to volunteer
- Volunteer to talk to a city council member
- Host a Smokefree Idaho guest speaker at you workplace
- Include Smokefree Idaho information in your company newsletter or other materials
- Write a Letter to the Editor in Support of Smoke free Idaho
- Cover printing costs for Smokefree Idaho campaign material
- Make a donation in the amount of \$\_\_\_\_\_ to support Smokefree Idaho

As a supporter of our campaign, we will include your name/logo on our website and provide communication updates of our activities and upcoming events. Your support will help us provide a healthy and smokefree environment for all Idaho residents and visitors to work and recreate. Thank you for your help in these efforts.

Sincerely,

Mary T. MacConnell. *Chair*  
*Coalition for a Healthy Idaho*
